A new innovation in the care of children
OPENING SPRING 2022

Do you have child with a developmental disorder, chronic health problem or a physical challenge and you need to work? You now have access to a trusted, treatment focused childcare program while you work. The Treatment Focused Childcare program provides a high level of affordable licensed childcare including:

- Physical, Occupational, Speech and Language, Behavioral, Music Therapy
- Licensed Clinicians-Pediatric Specialists
- Licensed Early Childhood Teacher
- On-site Nurse
- Registered Childcare Teachers and Therapy Assistants

FULL DAY CHILDCARE

The Treatment Focused Childcare Program will provide care for ages 20 months-4 years with developmental disorders, chronic health issues, and physical challenges and their families. You can go to work knowing your child's health and wellbeing is in expert hands.

INDIVIDUALIZED TREATMENT

Your child will receive the treatments they need from a licensed clinicians with specific goals and bench marks determined especially to meet their needs.

EARLY CHILDHOOD DEVELOPMENT

The clinicians and teachers will integrate exercises, supervise educational programming, social activities, and oversee the general care of your child. A registered nurse will provide supervision and appropriate medical care for your child's health.

PARENT PARTICIPATION

You will receive weekly parent training from clinicians so you learn and develop skills necessary for at home care. Monthly parent support groups will also be provided. You will be kept up to date on the care and wellbeing of your child as well as have remote visual access at any time.

PAYMENT OPTIONS

Treatment Focused Childcare is designed to be affordable and financially sustained through the distribution of costs over multiple sources: health insurance, Medicaid, state and federal programs and private fees.
